

Globalization and its socio-economic consequences 2020

International scientific conference

University of Zilina, Faculty of Operation and Economics of Transport and Communications,
Department of Economics invites you to the international scientific conference

Globalization and its socio-economic consequences 2020

Slovak Republic, Ražejce Teplice, 21. - 22. October 2020

Last year conference proceedings was indexed in the Web of Science database three months after its publishing.

The international scientific conference is thematically focused on the process of globalization and its impact on economic, social and cultural life of human society. Its main aim is the cooperation with domestic and foreign educational and scientific-research institutions to present and transfer newest knowledge in the relevant field. The conference has gained an excellent renown through twenty years of its existence and that is the reason why outstanding experts in their research fields participate actively or virtually every year.

This year conference scopes are to address the following fundamental issues of:

- Global impact of COVID 19 on economy a society
- Behavioral Economics and Decision-Making
- Financial Management and Financial Markets
- Innovation and Investment in Industry 4.0
- Collaborative Economic, Digital Platforms and Multimedia
- Corporate Social Responsibility and Consumer Claims
- Regions and Economic Resilience
- Economic Sustainability
- International Relations and Globalization
